## What happens if I put the wrong items in my organic or my recycling bin?

Putting unsuitable items in the brown or blue bins will cause contamination and will result in the bin contents being unsuitable for composting or recycling and your bin will be rejected. If this happens, please remove all unsuitable items and your bin will be emptied on your next scheduled collection date. To ensure we can recycle as much as possible it is important that all customers separate their waste correctly. Only put clean, dry recyclables into your blue bin or blue bag and suitable compostable products in your brown bin. Materials should be put loose into the bin and not contained in any packing or wrapping.

Materials such as clothing, car batteries, lead, metal, etc. may be recyclable - these can be taken to our Bring Centre at Tuam Business Park, Weir Road, Tuam, Co Galway.

Bottles, Glass and other similar type products should be brought to your local bottle bank for recycling.

## Tips on how to keep the brown bin clean:

Line bin with newspaper, Wrap food in a sheet of newspaper before placing in the bin or purchase a bio-bag for food waste. Compostable bags can only be used if they comply with Standard BS EN 13432. Please check the packaging of bin liners prior to purchase to ensure that they comply with this standard. Bags complying with this standard can be purchased from most supermarkets and DIY stores. WERS recommend Greensax bags which are available in a variety of sizes from major supermarkets for use in our brown bins. Please visit [www.greensax.ie](http://www.greensax.ie) for more details.

**If in doubt ..... leave it out and place it in your general waste bin**
